

# AL IIIISTER

A Viognier-based wine made in amphora. It would seem that we are talking about some Tuscan winery, but Henri has taken some risk and dedicated the results to his father. A wine that comes from the union of two very distant grapes that speak the same language, with Sauvignon giving Viognier the acidity it lacks, further enriching its aromatic bouquet. A risk that has led to the birth of an innovative product marked by great drinkability, aroma and elegance.
